Customer-obsessed, data driven, AI-Native Product Manager with 10+ years of experience in defining product vision and leading the product lifecycle for high-impact solutions. Shipped the last four Generative AI to 100M+ users, including Intuit's AI assistant and an agentic AI platform for Elastic. Proven track record of delivering high-impact, revenue generating software solutions, leveraging data-driven insights to drive significant user satisfaction and growth. Exceptional written and verbal communication skills with strong analytical/statistical skills, driving operational scale and measurable business impact.

Experience

Elastic – Senior Product Manager

12/2025- Present

Product lead building and scaling an agentic conversational AI platform (Agent Builder).

- Launched a new agentic conversational AI platform from concept to **GA in 2 months** and reached monetization by month 5, owning end-to-end product vision, strategy, and roadmap
- Built the pricing and packaging strategy for hosted billing and pay-as-you-go models, **growing revenue 79% month-over-month** (\$70K to \$125K).
- Scaled **daily active users** roughly **53x** and monthly **token usage** roughly **110x** by aligning **7+ cross-functional teams** to extend Agent Builder across Elastic offerings
- **Reduced agent token costs by up to 40%** by collaborating with engineering and data science to architect context enrichment and context-engineering strategies
- Established a **product-led-growth motion** by partnering with Google, Anthropic, Cursor, and Microsoft to embed Agent Builder into the developer ecosystem
- Multiplied personal **productivity 4x** by building AI and LLM workflows in Claude Code and Cursor to synthesize feedback, analyze data, and produce PRDs, user journeys, and prototypes

Intuit – Staff Product Manager

08/2021- 05/2025

Led 0-to-1 and scale-stage AI/ML growth platforms across US and international markets for 100M+ customers worldwide

- Pioneered a **0-to-1 GenAI-powered growth strategy**, leading a **40+ member team** to launch Intuit Assist, the global financial assistant, for **100M+ customers** and driving **\$18M in revenue**
- Contributed **\$11M in incremental revenue** by scaling Intuit Assist across web, mobile, text, and voice
- Built a **0-to-1 ML-powered recommendation engine** driving **\$12M in MRR** through AI-driven personalization, ranking, cross-sell, and retention
- Drove **\$10M in incremental revenue** by running statistically rigorous A/B tests and turning analysis into product improvements
- **Increased self-help containment by 23%** and **CSAT by 11 points** through continuous A/B UX experimentation and AI automation
- **Deflected 17% of support contacts** by enriching GenAI responses and restructuring the knowledge base with RAG and Graph-RAG
- **Reduced agent escalations by 23% by refining NLP intents**, fine-tuning LLMs for disambiguation and tone, and adding AI-safety features with data science, content, legal, and Responsible AI teams
- **Managed a \$55M+ budget across 8+ vendors**, led build-vs-buy analysis, and **drove a 75% reduction** in development time by aligning 10+ cross-functional teams on a 3-year roadmap
- **Mentored junior product managers** and engineering teams, and presented demos to C-suite leadership and at industry conferences

NetApp – Product Manager, Enterprise e-Commerce

07/2017- 07/2021

Owned digital commerce and AI-powered marketplace products that drove customer growth and revenue.

- Built a **0-to-1 enterprise marketplace platform** that boosted product **evaluations 215%** and **generated \$500M** in sales opportunities
- Generated **\$35M+ in pipeline** by integrating the marketplace with Salesforce CRM and marketing automation platforms
- Launched a **0-to-1 AI chatbot** that lifted **conversion 33%** and **help-resolution rates 27%**, and raised **NPS 9 points (46 to 55)**
- Optimized chat NLP pipelines to handle **10K daily interactions at 95% intent accuracy**, scaling the chatbot across 3 business units
- Quantified **\$380M in revenue gaps for C-suite**, and led NetApp Insight conferences (2018, 2019) as product spokesperson

Sears Holdings Corporation - Product Manager – Sears Clothing, Enterprise eCommerce

03/2014 – 07/2016

Managed and grew Sears' online clothing business across consumer-facing digital platforms (desktop, mobile website, iOS and Android apps), with a strong focus on designing and delivering exceptional user experiences.

Arsys Infosolutions Pvt. Ltd - Associate Product Manager

01/2012 – 02/2014

Responsible for building product for ERP Globalization and Localization, SAP endorsed partner with 200+ employees in India

Siemens PLM Software – Software Engineer

05/2010 – 01/2012

Member of Teamcenter Integration for NX (TCIN) team for code development for functionalities in C/C++

Skills

- **AI and ML:** Generative AI, Large Language Models (LLMs), Agentic AI, Conversational AI, Customer Support Automation, Personalization and Recommendations, Ranking and Retrieval, Retrieval-Augmented Generation (RAG), Natural Language Processing (NLP), Machine Learning, Model Evaluation, AI Safety, Prompt and Context Engineering
- **Product Management:** Technical Product Management, Product Strategy and Vision, Roadmapping, End-to-End Product Lifecycle, Product Discovery, PRD Development, User Journeys and Personas, Ruthless Prioritization, Agile and Scrum, Platform Scalability, 0-to-1 Product Development
